Title Index

Acoustic Stimulus Duration in Relation to Behavioral Responses of Newborn Infants, Daniel Ling: 15, September, 567-571.

An Analysis of the Substitution Errors of a Group of Standard-English Speaking Children, Helen S. Cairns and Frederick Williams: 15, December, 811-830.

ANSI-1969 Standard Reference Threshold Sound-Pressure Levels for Audiometers: Some Comments, Pearl G. Weinsder: 15, September, 665-666.

The Anticipatory Struggle Hypothesis: Implications of Research on the Variability of Stuttering, Oliver Bloodstein: 15, September, 487-499.

An Approach to the Evaluation of Stuttering Therapy, Gavin Andrews and Roger J. Ingham: 15, June, 296-302.

Articulation Judgments: Some Perceptual Considerations, Lawrence D. Shriberg: 15, December, 876-882.

Articulation Proficiency in Twins and Singletons from Families of Twins, Adam P. Matheny, Jr. and Charlene Bruggemann: 15, December, 845-851.

Articulatory Effectiveness Stimulability, and Children's Performances on Perceptual and Memory Tasks, Ronald K. Sommers et al.: 15, September, 579-589.

Assessment and Modification of Verbal Imitation with Low-Functioning Retarded Children, Diane Bricker and William A. Bricker: 15, December, 690-696.

Auditory Comprehension of English by Monolingual and Bilingual Preschool Children, Elizabeth Carrow: 15, June, 407-412.

Auditory, Visual, and Auditory-Visual Recognition of Consonants by Children with Normal and Impaired Hearing, Norman P. Erber: 15, June, 413-422.

Behavior Problems of Deaf Children and Adolescents: A Factor-Analytic Study, Ronald S. Reivich and Irvin A. Rothrock: 15, March, 93-104.

Behavioral Dimensions of Stuttered Speech, David Prins and Frances Lohr: 15, March, 67-71.

Behavioral and Human Evoked Response Thresholds as a Function of Frequency, Donald Henderson: 15, June, 390-394.

Cinefluorographic Analyses of Selected Lingual Consonants, Raymond D. Kent and Kenneth L. Moll: 15, September, 453-473.

Comment on "Articulation and Stress/Juncture Production under Oral Anesthetization and Masking," Ralph O. Coleman and Herbert F. Schliesser: 15, September, 669-670.

A Comparative Analysis of the ITPA and PPVT Performance of Young Stutterers, Ann M. Williams and Colleen J. Marks: 15, June, 323-329.

A Comparison of Four Feature Systems Using Data from Three Psychophysical Methods: Sadanand Singh and Gordon M. Becker: 15, December, 821-830.

A Comparison of the Fundamental Frequency Characteristics of Esophageal Speech Measured on a Wave-by-Wave and Averaging Basis, Bernd Weinberg and Suzanne Bennett: 15, June, 351-355.

A Comparison of Phonemic and Graphemic Features of Eight English Consonants in Auditory and Visual Modes, Irma K. Jeter and Sadanand Singh: 15, March, 201-210.

A Comparison of the Results of a Revised Version of Berko's Test of Morphology with the Free Speech of Mentally Retarded Children, Richard B. Dever: 15, March, 169-178.

Comparison of Rubella and Nonrubella Young Deaf Adults: Implications for Learning, Jean U. Lehman and M. Patricia Simmons: 15, December, 734-742.

The Confusion of English Consonant Clusters in Lipreading, J. Richard Franks and Joan Kimble: 15, September, 474-482.

Consonant Phonemic Errors Associated with Pure-Tone Configurations and Certain Kinds of Hearing Impairment, Elmer Owens et al.: 15, June, 308-322.

Deferring the Adaptation Effect, M. E. Wingate: 15, September, 547-550.

Differential Effectiveness of Six Information-Input Procedures Utilized to Teach Unfamiliar Sounds in Isolation, John W. Wingo and Michael Hoshiko: 15, June, 256-263.

Disfluencies in Child-Child and Child-Mother Speaking Situations, Richard R. Martin et al.: 15, December, 753-756.

Disfluencies of Young Children in Two Speaking Situations, Richard R. Martin et al.: 15, December, 831-836.

Disfluency and Word Length, Franklin H. Silverman: 15, December, 788-791.

Disfluent Speech Behavior of Preschool Children, High School Seniors, and Geriatric Persons, Ehud Yairi and Noel F. Clifton, Jr.: 15, December, 714-719.

Duration Effects of Supraliminal Electrical Stimuli to the Tongue, Gerald N. McCall: 15, December, 869-875.
Dysarthria in Multiple Sclerosis, Frederic L. Darley et al.: 15, June, 229-245.
Ease of Articulation, John L. Locke: 15, March, 194-200.
The Effect of Auditory Masking on the Fluency of Normal Speakers, Franklin H. Silverman and Marjorie T. Goodhue: 15, September, 543-546.
The Effect of Hyperbaric Oxygen on Communication Function in Adults with Aphasia Secondary to Stroke, Martha T. Sarno et al.: 15, March, 42-48.
The Effect of Rehearsal on Frequency of Stuttering, Norman C. Brenner et al.: 15, September, 483-486.
The Effect of Response-Contingent Neutral Stimuli on Normal Speech Disfluency, Gerald M. Siegel and Bruce Hanson: 15, March, 123-133.
Effect of Similarity of Sound Substitutions on Retention, Harris Winitz and Betty Bellerose: 15, December, 677-680.
The Effect of a Timed Correct Sound Production Task on Carryover, Nicholas W. Bankson and Margaret C. Byrne: 15, March, 160-168.
Effects of Alcohol on the Speech of Alcoholics, Linda C. Sobell and Mark Sobell: 15, December, 861-868.
The Effects of Auditory Masking on the Anxiety Level, Frequency of Dysfluency, and Selected Vocal Characteristics of Stutterers, Martin R. Adams and Walter H. Moore: 15, September, 572-578.
Effects of Body Position on the Auditory System, J. H. Macrae: 15, June, 330-339.
The Effects of Physiological Noise on the Auditory Threshold, Linda K. Moulin: 15, December, 837-844.

Interaural Phase Disparity of Stutterers and Nonstutterers, Courtney Stromsta: 15, December, 771-780.
Item Content and /s/ Phone Articulation Test Results, Zoe Zebel et al.: 15, December, 852-860.
Language Comprehension and Auditory Discrimination in Articulation Deficient Kindergarten Children, Thomas P. Marquardt and John H. Saxman: 15, June, 382-389.
Misleading Textbook Illustrations of Simple Harmonic Motion, Michael Kubovy and Constantine Trahiotis: 15, December, 807-810.
The Nature of the Glottal Tone: A Clinical Case Report, Fred D. Minifie et al.: 15, March, 142-147.
Neuromuscular Control Examination (NMC) for Parkinsonism: Vowel Prolongations and Diadochokinetic and Reading Rates, E. James Kreul: 15, March, 72-83.
Noise Audiometer, Jerry V. Tobias: 15, December, 781-787.
Oral Vibrotactile Sensation: An Evaluation of Normal and Defective Speakers, Donald Fucci: 15, March, 179-184.
On the Perception of Coarticulation Effects in English VCV Syllables, Ilse Lehiste and Linda Shockey: 15, September, 500-506.
The Perception of Stress as a Semantic Cue in Aphasia, Sheila Blumstein and Harold Goodglass: 15, December, 800-806.
Perception of Vowel Phonemes in Fort Erie, Ontario, Canada, and Buffalo, New York: An Application of Synthetic Vowel Categorization Tests to Dialectology, Clodius Willis: 15, June, 246-255.
Perceptual Effects of Forward Coarticulation, David P. Kuehn and Kenneth L. Moll: 15, September, 654-664.
The Perceptual Level Functioning of Dysphasic Children: A Follow-up Study, Paul S. Weiner: 15, June, 423-438.
Personality, Stuttering Severity, and Age, David Prins: 15, March, 148-154.
Phonational Range in the Modal and Falsetto Registers, Raymond H. Colton and Harry Hollien: 15, December, 708-713.
Phonetic Interference and Motor Recall, Harris Winitz and Betty Bellerose: 15, September, 518-528.
Prediction of Stuttering by School-Age Stutterers, Franklin H. Silverman and Dean E. Williams: 15, March, 189-193.
A Problem of Language Disorder: Length Versus Structure, Paula Menyuk and Patricia L. Looney: 15, June, 264-279.
Recovery Cycle of the Acoustically Evoked Potential, John C. Beagley and Howard B. Buhm: 15 September, 507-517.
Recovery from Stuttering in a Junior and Senior High School Population, Eugene B. Cooper: 15, September, 632-638.
Relation Between Loudness and the Amplitude of the Early Components of the Averaged Electroencephalic Response, Jane R. Madell and Robert Goldstein: 15, March, 134-141.
Relationships among Components of the Grammar in Language Disorder, Paul Menyuk and Patricia L. Looney: 15, June, 395-408.
Reliability of the Modified Rhyme Test for Hearing, Donald W. Bell et al.: 15, June, 287-295.
A Reply to Coleman and Schlosser's "Comment on Articulation and Stress/Juncture Production under Oral Anesthetization and Masking," S. A. Gammon et al.: *15, September, 671-672.*
Reply to Peterson and Butt, Lawrence B. Leonard and Clarence E. Webb: 15, September, 668-669
Response of Infants and Young Children as a Function of Auditory Stimuli and Test Methods, Marie Thompson and Gary Thompson: 15, December, 699-707.
Selected Acoustic Characteristics of Esophageal Speech Produced by Female Laryngectomees, Bernd Weinberg and Suzanne Bennett: 15, March, 211-216.
Short-Term Habituation of the Averaged Electroencephalic Response in Infants, Bruce A. Weber: 15, December, 757-762.
Some Effects of Anxiety Deconditioning upon Stuttering Frequency, Burl B. Gray and Gene England: 15, March, 114-122.

Some Observations of Articulation during Labial Sensory Deprivation, Anne H. B. Putnam and Robert L. Ringel: 15, September, 529-542.
Speaking Fundamental Frequency and Chronologic Age in Males, Harry Hollien and Thomas Shipp: 15, March, 155-159.
Speech Perception under Conditions of Spectral Transformation: I. Phonetic Characteristics, Barry Blesser: 15, March, 5-41.
Temporary Threshold Shift Reduction as a Function of Contralateral Noise Level, Raymond S. Karlovich et al.: 15, December, 792-799.
Temporary Threshold Shifts Produced by Exposure to High-Frequency Noise, John H. Mills and Setja A. Taylo: 15, September, 624-631.
Temporary Threshold Shifts from Prolonged Exposure to Noise, Henry M. Carder and James D. Miller: 15, September, 603-623.
Time-by-Count Measurement of Diadochokinetic Syllable Rate, Samuel G. Fletcher. 15, December, 763-770.
Velopharyngeal Anatomy, David R. Dickson and Wilma M. Dickson: 15, June, 372-381.

Subject Index

Hearing

Anatomy and Physiology

Recovery Cycle of the Acoustically Evoked Potential, John C. Beagley and Howard B. Rubin: 15, September, 507-517.
Relation Between Loudness and the Amplitude of the Early Components of the Averaged Electroencephalic Response, Jane R. Madell and Robert Goldstein: 15, March, 134-141.
Short-Term Habituation of the Averaged Electroencephalic Response in Infants, Bruce A. Weber: 15, December, 757-762.

Audiology

Acoustic Stimulus Duration in Relation to Behavioral Responses of Newborn Infants, Daniel Ling: 15, September, 567-571.
ANSI-1969 Standard Reference Threshold Sound-Pressure Levels for Audiometers: Some Comments, Pearl G. Weissler: 15, September, 665-666.
Auditory, Visual, and Auditory-Visual Recognition of Consonants by Children with Normal and Impaired Hearing, Norman P. Erber: 15, June, 413-422.
Behavioral and Human Evoked Response Thresholds as a Function of Frequency, Donald Henderson: 15, June, 390-394.
Consonant Phonemic Errors Associated with Pure-Tone Configurations and Certain Kinds of Hearing Impairment, Elmer Owens et al.: 15, June, 308-322.
The Effects of Physiological Noise on the Auditory Threshold, Linda K. Moulin: 15, December, 837-844.
Effects of Practice on SISI Scores with Normal-Hearing Subjects, Robert T. Fulton and Joseph E. Spradlin: 15, March, 217-224.
An Evaluation of the Efficiency of the Verbal Auditory Screening for Children (VASC), Betty C. Ritchie and Richard A. Merklein: 15, June, 280-286.
Individual Consistency of Hearing for Speech across Diverse Listening Conditions, Raymond Carhart and Tom W. Tillman: 15, March, 105-113.
Noise Audiometer, Jerry V. Tobias: 15, December, 781-787.
Relation Between Loudness and the Amplitude of the Early Components of the Averaged Electroencephalic Response, Jane R. Madell and Robert Goldstein: 15, March, 134-141.
Reliability of the Modified Rhyme Test for Hearing, Donald W. Bell et al.: 15, June, 287-295.
Response of Infants and Young Children as a Function of Auditory Stimuli and Test Methods, Marie Thompson and Gary Thompson: 15, December, 699-707.

Deafness

Auditory, Visual, and Auditory-Visual Recognition of Consonants by Children with Normal and Impaired Hearing, Norman P. Erber: 15, June, 413-422.

Behavior Problems of Deaf Children and Adolescents: A Factor-Analytic Study, Ronald S. Reivich and Irvin A. Rothrock: 15, March, 93-104.
Comparison of Rubella and Nonrubella Young Deaf Adults: Implications for Learning, Jean U. Lehman and M. Patricia Simmons: 15, December, 734-742.
The Confusion of English Consonant Clusters in Lipreading: J. Richard Franks and Joan Kimble: 15, September, 474-482.

PSYCHOACOUSTICS

Behavioral and Human Evoked Response Thresholds as a Function of Frequency, Donald Henderson: 15, June, 390-394.
Comment on "Articulation and Stress/Juncture Production under Oral Anesthetization and Masking," Ralph O. Coleman and Herbert F. Schliesser: 15, September, 669-670
A Comparison of Four Feature Systems Using Data from Three Psychophysical Methods: Sadanand Singh and Gordon M. Becker: 15, December, 821-830.
A Comparison of Phonemic and Graphemic Features of Eight English Consonants in Auditory and Visual Modes, Irma K. Jeter and Sadanand Singh: 15, March, 201-210.
The Effect of Auditory Masking on the Fluency of Normal Speakers, Franklin H. Silverman and Marjorie T. Goodhue: 15, September, 543-548.
The Effects of Auditory Masking on the Anxiety Level, Frequency of Dysfluency, and Selected Vocal Characteristics of Stutterers, Martin R. Adams and Walter H. Moore: 15, September, 572-578.
Effects of Body Position on the Auditory System, J. H. Macrae: 15, June, 330-339.
The Effects of Physiological Noise on the Auditory Threshold, Linda K. Moulin: 15, December, 837-844.
Individual Consistency of Hearing for Speech across Diverse Listening Conditions, Raymond Carhart and Tom W. Tillman: 15, March, 105-113.
Intelligibility of Connected Discourse, Charles Speaks et al.: 15, September, 590-602.
Intelligibility of Time-Compressed CNC Monosyllables, Daniel S. Beasley et al.: 15, June, 340-350.
Interaural Phase Disparity of Stutterers and Nonstutterers, Courtney Stromsta: 15 December, 771-780.
Misleading Textbook Illustrations of Simple Harmonic Motion, Michael Kubovy and Constantine Trahiotis: 15, December, 807-810.
Reliability of the Modified Rhyme Test for Hearing, Donald W. Bell et al.: 15, June, 287-295.
A Reply to Coleman and Schliesser's "Comment on Articulation and Stress/Juncture Production under Oral Anesthetization and Masking," S. A. Gammon et al.: 15, September, 671-672.
Speech Perception under Conditions of Spectral Transformation: I. Phonetic Characteristics, Barry Blesser: 15, March, 5-41.
Temporary Threshold Shift Reduction as a Function of Contralateral Noise Level, Raymond S. Karlovich et al.: 15, December, 792-799.
Temporary Threshold Shifts Produced by Exposure to High-Frequency Noise, John H. Mills and Seija A. Talo: 15, September, 624-631.
Temporary Threshold Shifts from Prolonged Exposure to Noise, Henry M. Carder and James D. Miller: 15, September, 603-623.

OTHER

Behavior Problems of Deaf Children and Adolescents: A Factor-Analytic Study, Ronald S. Reivich and Irvin A. Rothrock: 15, March, 93-104.
Comparison of Rubella and Nonrubella Young Deaf Adults: Implications for Learning, Jean U. Lehman and M. Patricia Simmons: 15, December, 734-742.
Effects of Stimulus Rate and Number on the Early Components of the Averaged Electroencephalic Response, Robert Goldstein et al.: 15, September, 559-566.
Recovery Cycle of the Acoustically Evoked Potential, John C. Bess and Howard B. Ruhm: 15, September, 507-517.
Short-Term Habituation of the Averaged Electroencephalic Response in Infants, Bruce A. Weber: 15, December, 757-762.

Language

Aphasia

The Effect of Hyperbaric Oxygen on Communication Function in Adults with Aphasia Secondary to Stroke, Martha T. Sarno et al.: 15, March, 42-48.
Effects of Task Difficulty on Naming Performance of Aphasic Subjects, Robert H. Brookshire: 15, September, 351-358.
The Perception of Stress as a Semantic Cue in Aphasia, Sheila Blumstein and Harold Goodglass: 15, December, 800-806.
The Perceptual Level Functioning of Dysphasic Children: A Follow-up Study, Paul S. Weiner: 15, June, 423-438.

Language Development

An Analysis of the Substitution Errors of a Group of Standard English-Speaking Children, Helen S. Cairns and Frederick Williams: 15, December, 811-820.
Auditory Comprehension of English by Monolingual and Bilingual Preschool Children, Elizabeth Carrow: 15, June, 407-412.
A Comparison of the Results of a Revised Version of Berko's Test of Morphology with the Free Speech of Mentally Retarded Children, Richard B. Dever: 15, March, 169-178.
Evaluation of Intraverbal Responses in Five- to Seven-Year-Old Children, William Poon and Katharine G. Butler: 15, June, 303-307.
Language Comprehension and Auditory Discrimination in Articulation Deficient Kindergarten Children, Thomas P. Marquardt and John H. Saxman: 15, June, 382-389.

Other

Assessment and Modification of Verbal Imitation with Low-Functioning Retarded Children, Diane Bricker and William A. Bricker: 15, December, 690-698.
Auditory Comprehension of English by Monolingual and Bilingual Preschool Children, Elizabeth Carrow: 15, June, 407-412.
A Comparison of Four Feature Systems Using Data from Three Psychophysical Methods: Sadanand Singh and Gordon M. Becker: 15, December, 821-830.
A Comparison of Phonemic and Graphemic Features of Eight English Consonants in Auditory and Visual Modes, Irma K. Jeter and Sadanand Singh: 15, March, 201-210.
The Confusion of English Consonant Clusters in Lipreading, J. Richard Franks and Joan Kimble: 15, September, 474-482.
Disfluencies in Child-Child and Child-Mother Speaking Situations, Richard R. Martin et al.: 15, December, 753-756.
Disfluency and Word Length, Franklin H. Silverman: 15, December, 786-791.
Ease of Articulation, John L. Locke: 15, March, 194-200.
Effect of Similarity of Sound Substitutions on Retention, Harris Winitz and Betty Bellerose: 15, December, 677-689.
An Experimental Treatment with Two Preschool Stuttering Children, Richard R. Martin et al.: 15, December, 743-752.
Fluent and Hesitation Pauses as a Function of Syntactic Complexity, Kenneth F. Ruder and Paul J. Jensen: 15, March 49-60.
On the Perception of Coarticulation Effects in English VCV Syllables, Ilse Lehiste and Linda Shockey: 15, September, 500-508.
Perception of Vowel Phonemes in Fort Erie, Ontario, Canada, and Buffalo, New York: An Application of Synthetic Vowel Categorization Tests to Dialectology, Clodius Willis: 15, June, 246-255.
Phonetic Interference and Motor Recall, Harris Winitz and Betty Bellerose: 15, September, 518-528.
A Problem of Language Disorder: Length Versus Structure, Paula Menyuk and Patricia L. Looney: 15, June, 264-279.
Relationships among Components of the Grammar in Language Disorder, Paula Menyuk and Patricia L. Looney: 15, June, 395-406.

Speech

Anatomy and Physiology

Duration Effects of Supraliminal Electrical Stimuli to the Tongue, Gerald N. McCall: 15 December, 869-875.

Articulation Disorders

An Analysis of the Substitution Errors of a Group of Standard English-Speaking Children, Helen S. Cairns and Frederick Williams: 15, December, 811-820.

Articulation Judgments: Some Perceptual Considerations, Lawrence D. Shriberg: 15, December, 876-882.

Articulation Proficiency in Twins and Singletons from Families of Twins, Adam P. Matheny, Jr. and Charlene Bruggemann: 15, December, 845-851.

Articulatory Effectiveness, Stimulability, and Children's Performances on Perceptual and Memory Tasks, Ronald K. Sommers et al.: 15, September, 579-589.

Dysarthria in Multiple Sclerosis, Frederic L. Darley et al.: 15, June, 229-245.

Effect of Similarity of Sound Substitutions on Retention, Harris Winitz and Betty Bellerose: 15, December, 677-689.

The Effect of a Timed Correct Sound Production Task on Carryover, Nicholas W. Bankson and Margaret C. Byrne: 15, March, 160-168.

Factors in a Programmed Approach to Therapy, David D. Peterson and Dolores S. Butt: 15, September, 667-668.

Imitative and Spontaneous Articulatory Assessment of Four-Year-Old Children, Janet D. Kresheck and Ginger Socolofsky: 15, December, 729-733.

The Influence of Linguistic and Situational Variables on Phonemic Accuracy in Apraxia of Speech, Jon L. Deal and Frederick L. Darley: 15, September, 639-653.

Item Context and /s/ Phone Articulation Test Results, Zoe Zehel et al.: 15, December, 852-860.

Language Comprehension and Auditory Discrimination in Articulation Deficient Kindergarten Children, Thomas P. Marquardt and John H. Saxman: 15, June, 382-389.

Neuromuscular Control Examination (NMC) for Parkinsonism: Vowel Prolongations and Diadochokinetic and Reading Rates, E. James Kreul: 15, March, 72-83.

Reply to Peterson and Butt, Lawrence B. Leonard and Clarence E. Webb: 15, September, 665-669.

Speech and Voice Science

Cinefluorographic Analyses of Selected Lingual Consonants, Raymond D. Kent and Kenneth L. Moll: 15, September, 453-473.

Comment on "Articulation and Stress/Juncture Production under Oral Anesthetization and Masking," Ralph O. Coleman and Herbert F. Schliesser: 15, September, 669-670.

A Comparison of Four Feature Systems Using Data from Three Psychophysical Methods: Sadanand Singh and Gordon M. Becker: 15, December, 821-830.

A Comparison of the Fundamental Frequency Characteristics of Esophageal Speech Measured on a Wave-by-Wave and Averaging Basis, Bernd Weinberg and Suzanne Bennett: 15, June, 351-355.

A Comparison of Phonemic and Graphemic Features of Eight English Consonants in Auditory and Visual Modes, Irma K. Jeter and Sadanand Singh: 15, March, 201-210.

Differential Effectiveness of Six Information-Input Procedures Utilized to Teach Unfamiliar Sounds in Isolation, John W. Wingo and Michael Hoshiko: 15, June, 256-263.

Duration Effects of Supraliminal Electrical Stimuli to the Tongue, Gerald N. McCall: 15, December, 869-875.

Ease of Articulation, John L. Locke: 15, March, 194-200.

A Factor-Analytic Study of the Articulation of Selected English Consonants, Keith J. Edwards and James G. Anderson: 15, December, 720-728.

Formant Frequency Characteristics of Esophageal Speech, Nancy L. Sisty and Bernd Weinberg: 15, June, 439-448.

Intelligibility of Time-Compressed CNC Monosyllables, Daniel S. Beasley et al.: 15, June, 340-350.

The Nature of the Glottal Tone: A Clinical Case Report, Fred D. Minifie et al.: 15, March, 142-147.
Oral Vibrotactile Sensation: An Evaluation of Normal and Defective Speakers, Donald Fucci: 15, March, 179-184.
On the Perception of Coarticulation Effects in English VCV Syllables, Ilse Lehiste and Linda Shockey: 15, September, 500-508.
Perceptual Effects of Forward Coarticulation, David P. Kuehn and Kenneth L. Moll: 15, September, 654-664.
Phonational Range in the Modal and Falsetto Registers, Raymond H. Colton and Harry Hollien: 15, December, 708-713.
A Reply to Coleman and Schlueter's "Comment on Articulation and Stress/Juncture Production under Oral Anesthetization and Masking," S. A. *Gammon et al.: 15, September, 671-672.*
Some Observations of Articulation during Labial Sensory Deprivation, Anne H. B. Putnam and Robert L. Ringel: 15, September, 529-542.
Speaking Fundamental Frequency and Chronologic Age in Males, Harry Hollien and Thomas Shipp: 15, March, 155-159.
Speech Perception under Conditions of Spectral Transformation: I. Phonetic Characteristics, Barry Blesser: 15, March, 5-41.
Time-by-Count Measurement of Diadochokinetic Syllable Rate, Samuel G. Fletcher: 15, December, 763-770.
Velopharyngeal Anatomy, David R. Dickson and Wilma M. Dickson: 15, June, 372-381.

STUTTERING

The Anticipatory Struggle Hypothesis: Implications of Research on the Variability of Stuttering, Oliver Bloodstein: 15, September, 487-499.
An Approach to the Evaluation of Stuttering Therapy, Gavin Andrews and Roger J. Ingham: 15, June, 296-302.
Behavioral Dimensions of Stuttered Speech, David Prins and Frances Lohr: 15, March, 61-71.
A Comparative Analysis of the ITPA and PPVT Performance of Young Stutterers, Ann M. Williams and Colleen J. Marks: 15, June, 323-329.
Deferring the Adaptation Effect, M. E. Wingate: 15, September, 547-550.
Disfluencies in Child-Child and Child-Mother Speaking Situations, Richard R. Martin et al.: 15, December, 753-756.
Disfluencies of Young Children in Two Speaking Situations, Richard R. Martin et al.: 15, December, 831-836.
Disfluency and Word Length, Franklin H. Silverman: 15, December, 788-791.
Disfluent Speech Behavior of Preschool Children, High School Seniors, and Geriatric Persons, Ehud Yairi and Noel F. Clifton, Jr.: 15, December, 714-719.
The Effect of Auditory Masking on the Fluency of Normal Speakers, Franklin H. Silverman and Marjorie T. Goodhan: 15, September, 543-546.
The Effect of Rehearsal on Frequency of Stuttering, Norman C. Brenner et al.: 15, September, 483-486.
The Effect of Response-Contingent Neutral Stimuli on Normal Speech Disfluency, Gerald M. Seigel and Bruce Hanson: 15, March, 123-133.
Effects of Alcohol on the Speech of Alcoholics, Linda C. Sobell and Mark Sobell: 15, December, 861-868.
The Effects of Auditory Masking on the Anxiety Level, Frequency of Dysfluency, and Selected Vocal Characteristics of Stutterers, Martin R. Adams and Walter H. Moore: 15, September, 572-578.
Equality of Intervals on the Lewis-Sherman Scale of Stuttering Severity, Richard C. Berry and Franklin H. Silverman: 15, March, 185-188.
Evaluation of a Tape-Recorded Method of Stuttering Therapy: Improvement in a Speaking Task, Maryann Peins et al.: 15, June, 364-371.
An Experimental Treatment with Two Preschool Stuttering Children, Richard R. Martin et al.: 15, December, 743-752.
A Further Analysis of Fluency within Stuttered Speech, Linda R. Few and James B. Lingwall: 15, June, 356-363.

Generality of Disfluency Data Collected from Preschoolers, Ellen-Marie Silverman: 15, March, 84-92.
Interaural Phase Disparity of Stutterers and Nonstutterers, Courtney Stromsta: 15, December, 771-780.
Personality, Stuttering Severity, and Age, David Prins: 15, March, 148-154.
Prediction of Stuttering by School-Age Stutterers, Franklin H. Silverman and Dean E. Williams: 15, March, 189-193.
Recovery from Stuttering in a Junior and Senior High School Population, Eugene B. Cooper: 15, September, 632-638.
Some Effects of Anxiety Deconditioning upon Stuttering Frequency, Burl B. Gray and Gene England: 15, March, 114-122.

Voice Disorders

A Comparison of the Fundamental Frequency Characteristics of Esophageal Speech Measured on a Wave-by-Wave and Averaging Basis, Bernd Weinberg and Suzanne Bennett: 15, June, 351-355.
Fluent and Hesitation Pauses as a Function of Syntactic Complexity, Kenneth F. Ruder and Paul J. Jensen: 15, March, 49-60.
Formant Frequency Characteristics of Esophageal Speech, Nancy L. Sisty and Bernd Weinberg: 15, June, 439-448.
The Nature of the Glottal Tone: A Clinical Case Report, Fred D. Minifie et al.: 15, March, 142-147.
Selected Acoustic Characteristics of Esophageal Speech Produced by Female Laryngectomees, Bernd Weinberg and Suzanne Bennett: 15, March, 211-216.

Other

Articulatory Effectiveness, Stimulability, and Children's Performances on Perceptual and Memory Tasks, Ronald K. Sommers et al.: 15, September, 579-589.
Assessment and Modification of Verbal Imitation with Low-Functioning Retarded Children, Diane Bricker and William A. Bricker: 15, December, 690-698.
Dysarthria in Multiple Sclerosis, Frederic L. Darley et al.: 15, June, 229-245.
Effects of Alcohol on the Speech of Alcoholics, Linda C. Sobell and Mark Sobell: 15, December, 861-868.
Equality of Intervals on the Lewis-Sherman Scale of Stuttering Severity, Richard C. Berry and Franklin H. Silverman: 15, March, 185-188.
Neuromuscular Control Examination (NMC) for Parkinsonism: Vowel Prolongations and Diadochokinetic and Reading Rates, E. James Kreul: 15, March, 72-83.
Personality, Stuttering Severity, and Age, David Prins: 15, March, 148-154.
Phonetic Interference and Motor Recall, Harris Winitz and Betty Bellerose: 15, September, 518-528.
